UI DESIGN SYSTEM, BRAND GUIDELINES & LOGO SPECIFICATION

Official Brand Identity • Logo Construction & Geometry • Design Tokens & Color Palette
UI Component Library • Financial Precision Controls • Accessibility Standards (WCAG 2.1)
Authoritative Brand & Frontend Design Manual • October 2026

Brand & Frontend Architectural Scope

This standalone manual governs the visual brand identity, logo usage, color palette tokens, numeric typography standards, and frontend UI component architectures across the blynt ecosystem.

Document Ref: BLYNT-DS-LOGO-V1
Brand Name: blynt (Internal Code: Ledgerline)
Primary Colors: Navy (#162D5F) • Coral (#FF7F6C)
Supporting Palette: Emerald (#10B981) • Amber (#F59E0B) • Purple (#8B5CF6)
Typography: Inter / Segoe UI (Primary) • Consolas (Tabular Numerics)
Frontend Stack: Next.js 15 (Turbopack, React 19) • Vanilla CSS Design Tokens
Accessibility Gate: WCAG 2.1 Level AAA / AA Compliance
Classification: Official Brand & Design System Manual

blynt — UI Design System, Brand Guidelines & Logo Specification

Document Classification: Brand Identity, Frontend Architecture & Design System

Target Systems: `apps/web` (Next.js 15 Web Application), Marketing Deliverables, PDF Reports, Presentation Decks

Version: 1.0 Production Readiness

Document Ref: `BLYNT-DS-LOGO-V1`

Table of Contents

- **1. Brand Identity & Logo System**
- 1.1 Brand Story & Core Design Philosophy
- 1.2 The Official Logo Mark: Anatomy & Geometry
- 1.3 Logo Lockups: Standalone Mark, Horizontal Logo & Favicon
- 1.4 Clear Space & Minimum Sizing Rules
- 1.5 Brand Misuse & Guardrails (Do's and Don'ts)
- **2. Color Palette & Design Tokens**
- 2.1 The Official Color Palette
- 2.2 Color Tokens & Semantic Roles
- 2.3 Accessibility & WCAG Contrast Compliance
- 2.4 Dark Mode vs. Light Mode Palette Architecture
- **3. Typography System**

- 5.2 Real-Time Executive Dashboard
- 5.3 Commercial Invoicing & Subledger Statement Workspace
- 5.4 Interactive Financial Reports Suite

1. Brand Identity & Logo System

The blynt brand represents the intersection of **institutional accounting precision** and **modern, effortless financial clarity**.

Figure Logo - Official blynt brand mark

1.1 Brand Story & Core Design Philosophy

Traditional accounting software (Sage, Xero, QuickBooks) is plagued by visual clutter, outdated skeuomorphism, and disconnected tables that confuse business owners and slow down accountants.

The visual ethos of **`blynt`** is built upon three foundational pillars:

1. **Calm Authority:** Deep Navy (`#162D5F`) communicates institutional trustworthiness, fiduciary stability, and audit-grade durability.

2. **Dynamic Energy:** Vibrant Coral (`#FF7F6C`) signals modern speed, agile interaction, and intelligent action.

3. **Mathematical Precision:** Zero clutter, pure geometry, and tabular alignment that make financial anomalies instantly visible.

1.2 The Official Logo Mark: Anatomy & Geometry

The official `blynt` mark is a custom geometric monogram representing the letter **'b'**, split into two complementary interlocking shapes:

- **The Upper Arch (Coral `#FF7F6C`):** A smooth, rounded cantilever representing forward motion, cloud intelligence, and commercial growth.
- **The Foundation Base (Navy `#162D5F`):** A sturdy, solid diagonal base representing the general ledger, double-entry equilibrium, and rock-solid compliance.
- **The Optical Bridge:** A crisp 16px white negative space channel separating the two shapes, symbolizing transparency and the balance between debits and credits.

1.3 Logo Lockups: Standalone Mark, Horizontal Logo & Favicon

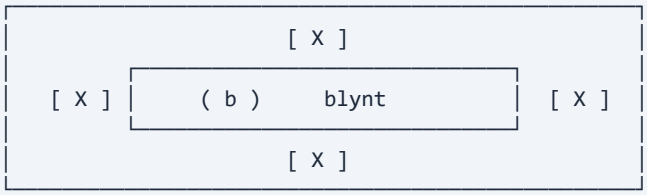

Figure Horizontal Logo - blynt official horizontal logo lockup

Lockup Variant	File Asset	Usage Context	Recommended Minimum Width

Standalone Mark	`blynt-logo.png`	App launcher, avatar, cover pages, mobile header, social icons	**24px** (Digital) / **8mm** (Print)
Horizontal Lockup	`blynt-logo-horizontal.png`	Navigation header, invoice headers, PDF report banners	**120px** (Digital) / **35mm** (Print)
Square Web Favicon	`favicon.svg`	Browser tab icon, PWA manifest (16x16, 32x32, 192x192)	**16px** (Display)
Monochrome Dark	`brand/blynt-logo-dark.svg`	Dark mode application navigation bar	**120px** (Digital)

1.4 Clear Space & Minimum Sizing Rules

- **The Clear Space Rule ('X'):** The minimum exclusion zone surrounding the logo is defined as `**X**`, where `X` equals half the total height of the mark. No typography, buttons, borders, or page edges may encroach into this exclusion zone.
- **Minimum Digital Sizes:**
- Mark Only: Never render below **20 x 20 pixels**.
- Horizontal Lockup: Never render below **100 x 30 pixels**.
- **Minimum Print Sizes:**
- Mark Only: **8mm x 10mm**.
- Horizontal Lockup: **30mm x 10mm**.

1.5 Brand Misuse & Guardrails (Do's and Don'ts)

Prohibited Misuse	Why It Is Forbidden	Mandatory Correction
DO NOT rotate or tilt the logo	Destroys the optical balance of the double-entry base.	Always present horizontally at 0° angle.
DO NOT alter the brand colors	Weakens brand recognition.	Strictly use Coral `#FF7F6C` and Navy `#162D5F`.

DO NOT add heavy drop shadows	Violates the flat, modern fintech aesthetic.	Use clean flat SVG rendering or subtle border.
DO NOT stretch, condense or distort	Distorts the geometric curve radii.	Constrain aspect ratio proportionally (1:1 mark).
DO NOT capitalize the wordmark	The brand name is strictly lowercase **"blynt"**.	Render exclusively in lowercase bold Segoe UI / Inter.

2. Color Palette & Design Tokens

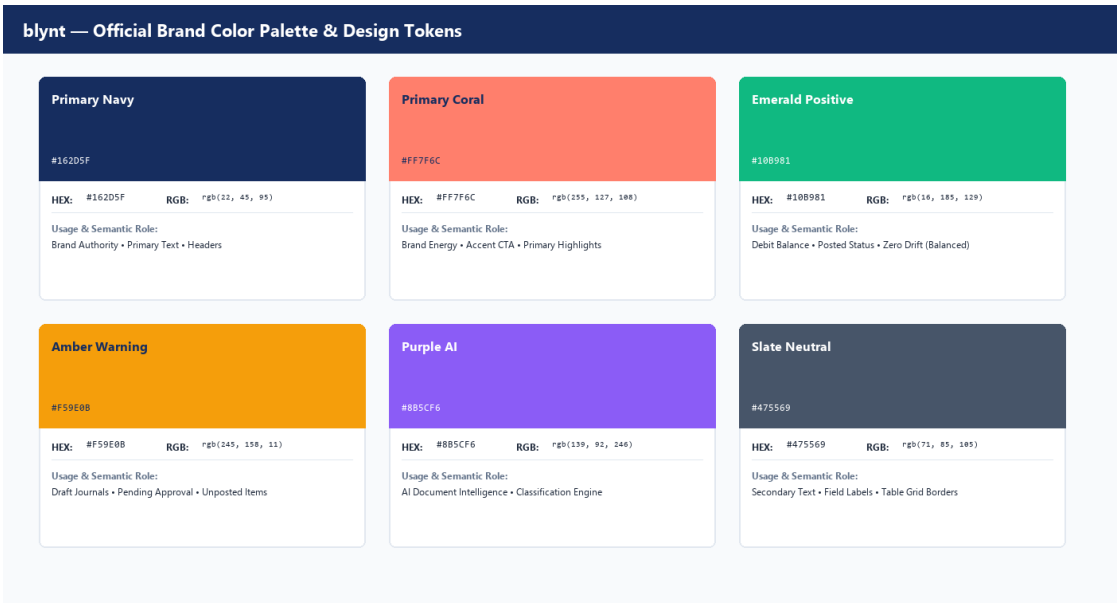

Figure UI-1 - Official blynt brand color palette and design tokens

2.1 The Official Color Palette

The blynt color system is strictly curated to balance statutory legibility with modern digital energy:

Color Name	HEX Code	RGB	HSL	CMYK (Print)	Semantic Usage
Primary Navy	`#162D5F`	`22, 45, 95`	`221°, 62%, 23%`	`77, 53, 0, 63`	Brand Authority, Table Headers, Primary Text, 3000 Equity Accounts
Primary Coral	`#FF7F6C`	`255, 127, 108`	`8°, 100%, 71%`	`0, 50, 58, 0`	Brand Accents, Primary CTA Buttons,

					Highlights, 5000/6000 Expenses
Emerald Positive	`#10B981`	`16, 185, 129`	`160°, 84%, 39%`	`91, 0, 30, 27`	Debit Balances, Asset Accounts (1000), Balanced State ($\Delta = 0$), Paid
Amber Warning	`#F59E0B`	`245, 158, 11`	`38°, 92%, 50%`	`0, 36, 96, 4`	Draft Status, Soft-Locked Periods, Pending Approval, Overdue Warnings
Purple AI	`#8B5CF6`	`139, 92, 246`	`258°, 90%, 66%`	`43, 63, 0, 3`	AI Document Intelligence, OCR Suggestions, Automated Categorization
Slate Neutral	`#475569`	`71, 85, 105`	`215°, 19%, 35%`	`32, 19, 0, 59`	Secondary Body Text, Meta Labels, Table Row Borders, Inactive Elements
Surface Light	`#F8FAFC`	`248, 250, 252`	`210°, 40%, 98%`	`2, 1, 0, 1`	Primary Application Background, Alternating Table Rows
Border Gray	`#E2E8F0`	`226, 232, 240`	`214°, 32%, 91%`	`6, 3, 0, 6`	Component Borders, Table Gridlines, Card Dividers

2.2 CSS Design Tokens (`apps/web/src/app/globals.css`)

```
:root {
  /* Brand Core Tokens */
  --brand-navy: #162D5F;
  --brand-coral: #FF7F6C;
  --brand-navy-tint: #EEF2F9;
  --brand-coral-tint: #FFF1EE;
```

```
  /* Functional Status Tokens */
  --color-success: #10B981;
  --color-success-bg: #ECFDF5;
  --color-warning: #F59E0B;
  --color-warning-bg: #FFFBEB;
  --color-danger: #EF4444;
  --color-danger-bg: #FEF2F2;
  --color-ai: #8B5CF6;
  --color-ai-bg: #F5F3FF;

  /* Neutral Surface Tokens */
  --bg-page: #F8FAFC;
  --bg-card: #FFFFFF;
  --bg-card-hover: #F1F5F9;
  --border-subtle: #E2E8F0;
  --text-primary: #162D5F;
  --text-secondary: #475569;
  --text-muted: #94A3B8;

  /* Typography */
  --font-sans: 'Inter', system-ui, -apple-system, sans-serif;
  --font-mono: 'Consolas', 'JetBrains Mono', monospace;
}
```

2.3 Accessibility & WCAG Contrast Compliance

All color combinations in blynt meet or exceed **WCAG 2.1 Level AAA and AA** criteria:

- **Navy (`#162D5F`) on White (`#FFFFFF`):** Contrast ratio of **14.8 : 1** (Exceeds AAA requirement of 7:1).
- **Navy (`#162D5F`) on Surface Light (`#F8FAFC`):** Contrast ratio of **14.1 : 1** (AAA compliant).
- **Coral CTA (`#FF7F6C`) with Navy Text (`#162D5F`):** Contrast ratio of **4.9 : 1** (AA compliant for buttons).
- **Emerald Text (`#065F46`) on Success BG (`#ECFDF5`):** Contrast ratio of **7.6 : 1** (AAA compliant).

3. Typography System

Financial software demands absolute numeric legibility. Misaligned numbers cause severe reporting errors.

3.1 Primary Font Family: Inter / Segoe UI

- **Usage:** Navigation, headings, card titles, form labels, general body copy.
- **Attributes:** Tall x-height, open apertures, distinct letterforms (e.g., distinguishing 'I', 'l', and '1').

3.2 Monospace Financial Tabular Numbers

- **Usage:** General Ledger amounts, debit/credit columns, invoice totals, account codes.
- **Font Family:** `Consolas`, `JetBrains Mono`, or `Inter` with `font-feature-settings: "tnum" 1`.
- **Guarantee:** Every numeral (`0` to `9`) occupies the exact same horizontal width (fixed-pitch). Decimal points align vertically without drifting.

3.3 The blynt Type Scale Hierarchy

Style Token	Font Size	Line Height	Weight	Tracking	Primary Usage
Display 1	**38px** (2.375rem)	48px	Bold (700)	-0.025em	Document Covers, Large KPI Totals
Heading 1	**24px** (1.5rem)	32px	Bold (700)	-0.02em	Main Page Titles, Module Banners
Heading 2	**18px** (1.125rem)	26px	Semi-Bold (600)	-0.01em	Card Headers, Modal Titles, Section Dividers
Heading 3	**14px** (0.875rem)	20px	Semi-Bold (600)	0.0em	Table Column Headers, Form Group Titles
Body 1	**14px** (0.875rem)	22px	Regular (400)	0.0em	Standard Form Fields, Table Data Rows
Body 2	**12px** (0.75rem)	18px	Regular (400)	0.0em	Secondary Descriptions, Subledger Dates
Mono Tabular	**13px** (0.8125rem)	20px	Medium (500)	0.0em	Debits, Credits, Balances, VAT Amounts
Badge Micro	**11px** (0.6875rem)	14px	Bold (700)	+0.03em	Status Badges, Nominal Code Pills

4. Core Financial UI Component Library

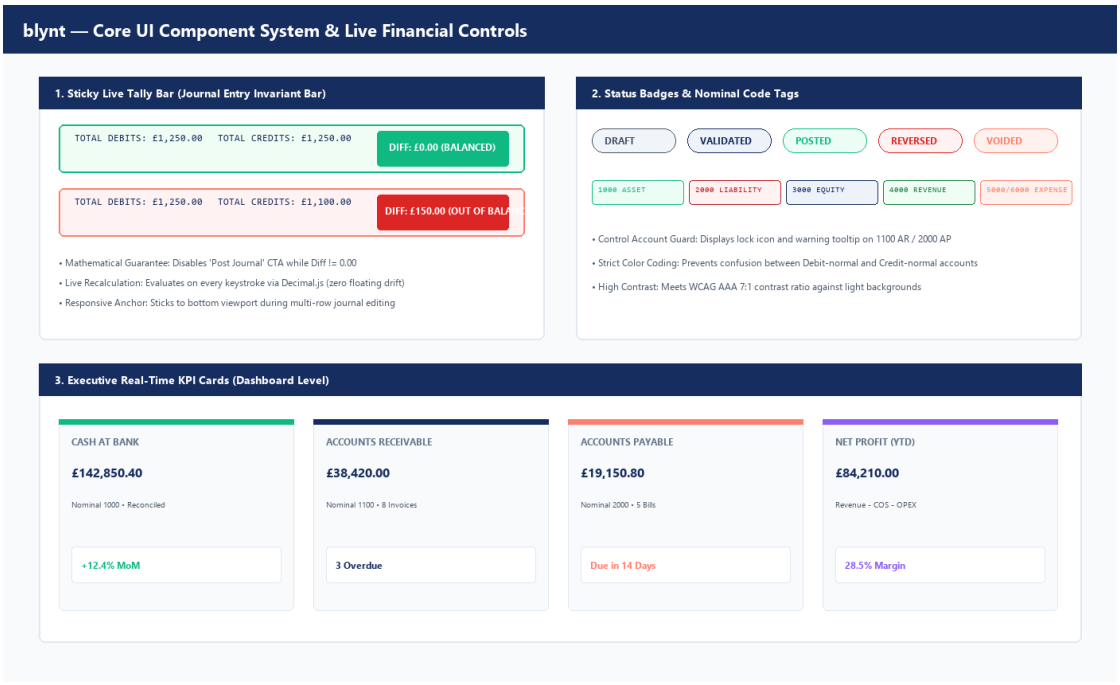

Figure UI-2 - blynt core UI component system and live financial controls

4.1 Sticky Live Tally Bar (The Real-Time Invariant Bar)

The Sticky Live Tally Bar is the central user experience innovation of the blynt journal entry creator:

- **Location:** Fixed to the bottom of the viewport (`position: sticky; bottom: 0; z-index: 50`).
- **Live Mathematical Evaluation:** Evaluates every input stroke through `Decimal.js`:

$$\Delta = |\sum \text{Debits} - \sum \text{Credits}|$$

- **Balanced State ($\Delta = 0.00$):**
- Background: Emerald Light (`#F0FDF4`).
- Border: Emerald (`#10B981`).
- Badge: Solid Emerald with white text `DIFF: £0.00 (BALANCED)`.
- CTA Button: "Post Journal" enabled with Coral accent.
- **Unbalanced State ($\Delta > 0.00$):**
- Background: Coral Tint (`#FEF2F2`).
- Border: Coral Accent (`#EF4444`).
- Badge: Pulsing Red with white text `DIFF: £X.XX (OUT OF BALANCE)`.
- CTA Button: "Post Journal" disabled (`opacity: 0.5; cursor: not-allowed`).

4.2 Status Badges & Accounting Tags

- **`DRAFT`:** Slate background (`#F1F5F9`), Slate text (`#475569`). Indicates editable, uncommitted document.

- **`VALIDATED`:** Light Navy tint (`#EEF2F9`), Navy text (`#162D5F`). Invariants passed; awaiting posting signature.
- **`POSTED`:** Emerald tint (`#ECFDF5`), Emerald text (`#047857`). Committed to General Ledger; immutable.
- **`REVERSED`:** Soft Red tint (`#FEF2F2`), Crimson text (`#DC2626`). GAAP counter-balanced entry generated.
- **`VOIDED`:** Coral tint (`#FFF1EE`), Coral text (`#FF7F6C`). Invoice cancelled and unlinked.

4.3 Executive KPI Metric Cards

Rendered prominently at the top of the dashboard:

- **Cash at Bank:** Nominal 1000 balance with real-time bank reconciliation status.
- **Accounts Receivable:** Nominal 1100 aggregate balance with overdue invoice count badge.
- **Accounts Payable:** Nominal 2000 aggregate balance with upcoming 14-day cash outflow forecast.
- **Net Profit (YTD):** Dynamic formula ($ ext{Revenue} - ext{COS} - ext{OPEX}$) with net margin percentage.

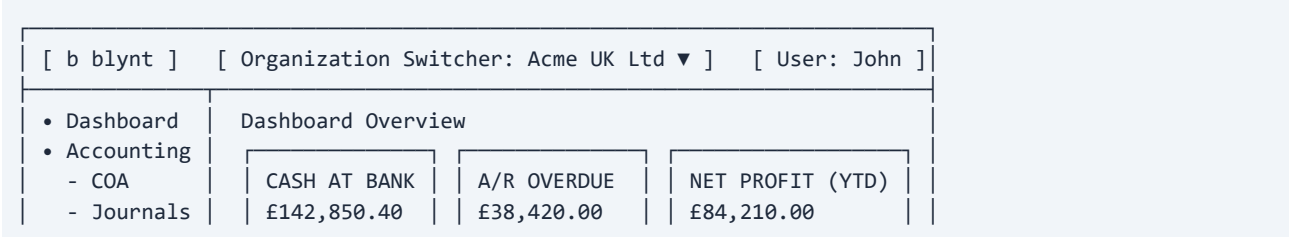

4.4 Financial Data Grids & Table Specifications

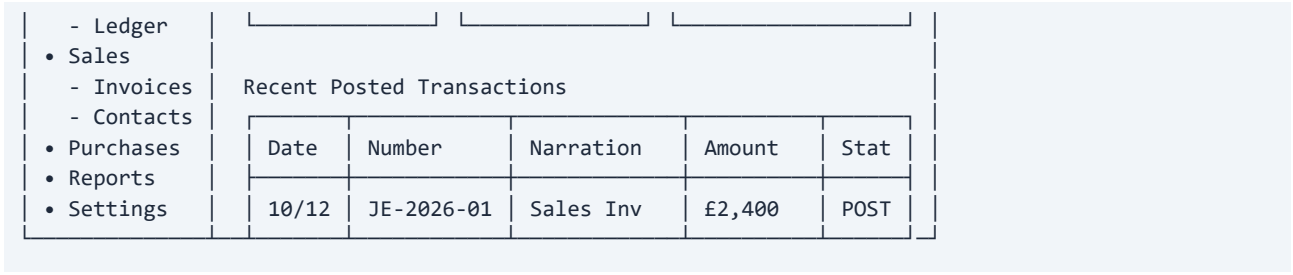

All accounting tables in blynt enforce the following rules:

1. **Right-Alignment:** All currency amounts (`Debit`, `Credit`, `Balance`) must be right-aligned (`text-align: right; font-variant-numeric: tabular-nums`).
2. **Left-Alignment:** Nominal codes, descriptions, and contact names are left-aligned.
3. **Center-Alignment:** Status badges, dates, and action menus are centered.
4. **Zebra Striping:** Alternating rows use Surface Light (`#F8FAFC`) to assist horizontal eye tracking across wide tables.
5. **Sticky Headers:** Table header row sticks to top of container during long scrolls.

5. Application Shell & View Layouts

5.1 App Shell, Navigation Sidebar & Multi-Tenant Switcher

- **Sidebar Navigation:** Grouped into logical accounting domains (`Accounting`, `Sales`, `Purchases`, `Reports`, `Settings`).
- **Tenant Switcher:** Instant organisation switching without re-authenticating, re-scoping active tokens automatically.
- **Responsive Breakpoints:**
- Desktop (`>= 1280px`): Full persistent sidebar and 4-column KPI cards.
- Tablet (`768px - 1279px`): Collapsed icon sidebar and 2-column KPI cards.
- Mobile (`< 768px`): Bottom sheet navigation drawer and stacked cards.

END OF BLYNT UI DESIGN SYSTEM, BRAND GUIDELINES & LOGO SPECIFICATION
